4. Each Party shall, at the request of the importer and for reasons deemed valid by its Customs Administration, extend the time limit for temporary admission beyond the period initially fixed.

5. Each Party shall relieve the importer of liability for failure to export a temporarily admitted good upon presentation of satisfactory proof to the Party's Customs Administration that the good has been destroyed within the original time limit for temporary admission or any lawful extension. A Party may condition relief of liability under this paragraph by requiring the importer to receive prior approval from the Customs Administration of the importing Party before the good can be so destroyed.

6. Each Party shall endeavour, through its Customs Administration and in accordance with its laws and regulations, to adopt and maintain procedures providing for the expeditious release of goods admitted under this Article.

Article 2.8
Goods Returned or Re-Entered After Repair or Alteration

1. Neither Party may apply a customs duty to a good, regardless of its origin, that re-enters its territory within 1 year after that good has been exported from its territory to the territory of the other Party for repair or alteration, regardless of whether such repair or alteration could be performed in its territory, except that a customs duty may be applied to the addition resulting from the repair or alteration that was performed in the territory of the other Party.

2. Neither Party may apply a customs duty to a good, regardless of its origin, admitted temporarily from the territory of the other Party for repair or alteration, provided such good is exported from the territory of the importing Party within 1 year of its entry.

3. For the purposes of this Article, "repair" or "alteration" means any operation or process undertaken on a good to remedy operational defects or material damage and entailing the re-establishment of the good to its original function, or to ensure its compliance with technical requirements for its use. Repair or alteration of a good includes restoring, renovating, cleaning, resterilising, maintenance, or other operation or process, regardless of a possible increase in the value of the good, that does not:

(a) destroy a good's essential characteristics or create a new or commercially different good;

(b) transform an unfinished good into a finished good; or

(c) change the function of a good.

4. The Parties shall commence a review of this Article within 2 years of the date of entry into force of this Agreement and, thereafter, every 3 years, or as the Parties agree otherwise.

Article 2.9
Import and Export Restrictions

Unless otherwise provided in this Agreement, neither Party shall adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the exportation or sale for export of any good destined for the territory of the other Party, except in accordance with Article XI of GATT 1994. To this end Article XI of GATT 1994 is incorporated into and made part of this Agreement, *mutatis mutandis*.

Article 2.10

1. Each Party shall ensure that all automatic and non-automatic import licensing procedures are implemented in a transparent and predictable manner and applied in accordance with the Import Licensing Agreement.

2. Each Party shall adopt, maintain, or administer its import licensing procedures in a manner consistent with Articles 1 through 3 of the Import Licensing Agreement.

3. A Party that institutes licensing procedures or makes changes to existing licensing procedures, shall notify the other Party of such procedures within 60 days of publication. The notification shall include the information specified in Article 5.2 of the Import Licensing Agreement. A Party shall be deemed to be in compliance with this provision if it has notified the relevant import licensing procedure, or any modifications thereof, to the Committee on Import Licensing provided for in Article 4 of the Import Licensing Agreement.

4. Upon request of a Party, the other Party shall promptly provide any relevant information specified in Article 5.2 of the Import Licensing Agreement, regarding any import licensing procedure that it has adopted or maintains, and wherever feasible the procedures that it intends to adopt, or changes to existing licensing procedures.

5. Nothing in this Article shall be construed in a manner that would require a Party to grant an import license.

6. If a Party denies an import license application with respect to a good of the other Party, it shall, on request of the applicant and within a reasonable period after receiving the request, provide the applicant with a response unless that information is not publicly available and accessible.

Article 2.11
Customs Valuation

Each Party reaffirms its commitment to the provisions of Part I and Annex I of the Customs Valuation Agreement for determining the customs value of the goods traded between the Parties.

Article 2.12
Subsidies

The rights and obligations of the Parties relating to subsidies and countervailing measures shall be governed by Articles VI and XVI of the GATT 1994 and the Agreement on Subsidies and Countervailing Measures, set out in Annex 1A to the WTO Agreement.

Article 2.13
Transparency

Article X of the GATT 1994 is incorporated into and forms part of this Agreement, *mutatis mutandis*.

Article 2.14
Restrictions to Safeguard the Balance-of-Payments

1. The Parties shall endeavour to avoid the imposition of restrictive measures for balance-of-payments purposes.

2. Any such measures taken for trade in goods shall be in accordance with Article XII of the GATT 1994 and the Understanding on the Balance-of-Payments Provisions of the General Agreement on the Tariffs and Trade 1994, the provisions of which are incorporated into and form part of this Agreement, *mutatis mutandis*.

Article 2.15
Administrative Fees and Formalities

1. Each Party shall ensure, in accordance with Article VIII:1 of the GATT 1994 and its interpretive notes and Article 6 of the Trade Facilitation Agreement, that all fees and charges of whatever character (other than import and export duties, charges equivalent to an internal tax or other internal charges applied consistently with Article III:2 of the GATT 1994, and anti-dumping and countervailing duties applied pursuant to its laws and regulations) imposed by that Party on, or in connection with, importation or exportation, are limited in amount to the approximate cost of services rendered to imports or exports and do not represent a direct or indirect protection for domestic goods or a taxation of imports for fiscal purposes.

2. Each Party shall promptly publish details and shall make such information available on the internet regarding the fees and charges it imposes in connection with importation or exportation and shall make such information available to the other Party, upon written request, in the English language.

Article 2.16
Non-Tariff Measures

1. Neither party shall adopt or maintain any non-tariff measures on the importation of any goods of the other Party or on the exportation of any goods destined for the territory of the other Party except in accordance with its rights and obligations under Annex 1A of the WTO Agreement or in accordance with other provisions of this Agreement.

2. Each Party shall ensure that the non-tariff measures under paragraph 1 are not prepared, adopted or applied with a view to or with the effect of creating unnecessary obstacles to trade in goods between the Parties.

Article 2.17
State Trading Enterprises

Nothing in this Agreement shall be construed to prevent a Party from maintaining or establishing a state trading enterprise in accordance with Article XVII of the GATT 1994 and the Understanding on the Interpretation of Article XVII of the General Agreement on the Tariffs and Trade 1994.

Article 2.18
Revision Clause

1. Upon request of a Party, the Parties shall consult to consider accelerating, or broadening the scope of the elimination of customs duties as set out in Annex 2A (Schedule of Specific Tariff Commitments of India) and Annex 2B (Schedule of Specific Tariff Commitments of Oman). Further commitments between the Parties to accelerate the elimination of a customs duty on a good, or to include a good in Annex 2A (Schedule of Specific Tariff Commitments of India) and Annex 2B (Schedule of Specific Tariff Commitments of Oman), shall supersede any duty rate or staging category determined pursuant to their respective Schedules of Tariff Commitments. These commitments shall enter into force on the date specified by the Parties following the exchange of notifications certifying that they have completed their internal legal procedures.

2. Nothing in this Agreement shall prohibit a Party from unilaterally accelerating or broadening the scope of the elimination of customs duties set out in its Schedule of Tariff Commitments in Annex 2A (Schedule of Specific Tariff Commitments of India) or Annex 2B (Schedule of Specific Tariff Commitments of Oman). Any such unilateral acceleration or broadening of the scope of the elimination of customs duties will neither permanently supersede any duty rate or staging category determined pursuant to their respective Schedule nor will serve to waive that Party's right to impose at a later time the duty rate or staging category that is determined for that later time by their respective Schedule.

3. For greater certainty with respect to paragraph 2, a Party may:

   (a) raise a customs duty back to the level established in its respective Schedule of Tariff Commitments in Annex 2A (Schedule of Specific Tariff Commitments of India) or Annex 2B (Schedule of Specific Tariff Commitments of Oman) following a unilateral reduction; or

   (b) maintain or increase a customs duty as authorised by the Dispute Settlement Body of the WTO.

Article 2.19
Exchange of Data

1. The Parties recognise the value of trade data in accurately analysing the implementation of this Agreement. The Parties shall cooperate with a

view to conducting periodic exchanges of data relating to trade in goods between the Parties.

2. The Parties may engage in such periodic exchanges within the CTG for such purposes and for any other purposes in furtherance of the obligations described in this Chapter as the CTG may determine.

3. A Party shall give positive consideration to a request from the other Party for technical assistance for the purposes of the exchange of data under paragraph 1.

Article 2.20
Committee on Trade in Goods

1. The Parties hereby establish CTG under the Joint Committee.

2. The functions of the CTG shall include:

   (a) the monitoring and review of measures taken and implementation of commitments under this Chapter;

   (b) the exchange of information and review of developments;

   (c) the preparation of technical amendments, including HS Code updating, and otherwise assisting the Joint Committee;

   (d) any other matter referred to it by the Joint Committee; and

   (e) the preparation of recommendations and reports to the Joint Committee, as necessary.

3. The CTG shall establish such subcommittees as may be necessary under this Agreement, including on Customs Procedures and Trade Facilitation, Technical Barriers to Trade, Sanitary and Phytosanitary Measures, Rules of Origin and Trade Remedies. All such subcommittees shall report to the CTG.

4. Each Party has the right to be represented in the CTG. The CTG shall act by consensus.

5. The CTG shall meet annually or more frequently as the Parties agree otherwise. The meetings of the CTG shall be chaired jointly by Oman and India.

6. The Parties shall examine any difficulties that might arise in their trade in goods and shall endeavour to seek appropriate solutions through dialogue and consultations.

"VA" means the value addition in a product, expressed as a percentage.

3 In case of build-down method, the value of the non-originating materials shall be

(ii) remuneration;

(iii) other employee benefits associated with the manufacturing process.

(x) storage and handling in the factory;

(xi) disposal of recyclable wastes;

(xii) cost elements in computing the value of raw materials, i.e., port and clearance charges and import duties paid for the dutiable component.

5. Notwithstanding paragraph 1, the final manufacture before export must have occurred in the exporting Party.

Article 4.2
Objectives

1. The objectives of this Chapter are to:

   (a) protect human, animal or plant life or health in the territories of the Parties while facilitating trade between them;

   (b) reinforce the SPS Agreement;

   (c) strengthen communication, consultation, and cooperation between the Parties, and particularly between the Parties' competent authorities;

   (d) ensure that sanitary or phytosanitary measures implemented by a Party do not create unjustified barriers to trade;

   (e) enhance transparency in and understanding of the application of each Party's sanitary and phytosanitary measures; and

(f) encourage the development and adoption of science-based international standards, guidelines and recommendations, and promote their implementation by the Parties.

Article 4.3
Scope

This Chapter shall apply to all sanitary and phytosanitary measures of a Party that may, directly or indirectly, affect trade between the Parties.

Article 4.4
General Provision

1. The Parties affirm their rights and obligations with respect to each other under the SPS Agreement.

2. In the event of any conflict between the definitions under the SPS Agreement and any of the other sources specified in paragraph 3 of Article 4.1 (Definitions), the definitions under the SPS Agreement shall prevail.

Article 4.5
Equivalence

1. Both Parties shall strengthen cooperation on equivalence in accordance with Article 4 of the SPS Agreement while taking into account relevant decisions of the WTO SPS Committee and international standards, guidelines and recommendations, in accordance with Annex A of the SPS Agreement, *mutatis mutandis*.

2. The importing Party shall recognise the equivalence of a sanitary and phytosanitary measure if the exporting Party objectively demonstrates to the importing Party that its measure achieves the same level of protection as the importing Party's measure or that its measure has the same effect in achieving the objective as the importing Party's measure.

3. In determining equivalence, the importing Party shall take into account existing knowledge, information and experience as well as the regulatory competence of the exporting Party.

4. A Party shall, upon request, enter into consultation with the aim of achieving bilateral recognition arrangements of equivalence of specified sanitary and phytosanitary measures. The recognition of equivalence

may be with respect to a single measure, group of measures or on a systems-wide basis. For this purpose, reasonable access shall be given, upon request, to the importing Party for inspection, testing and other relevant procedures.

5. As part of the consultation for equivalence recognition, on request by the exporting Party, the importing Party shall explain and provide:

(a) the rationale and objective of its measures; and

(b) the specific risks its measures are intended to address.

6. The exporting Party shall provide necessary information for the importing Party to commence an equivalence assessment. Once the assessment commences, the importing Party shall, without undue delay and upon request, explain the process and plan for making an equivalence determination.

7. The consideration by a Party of a request from the other Party for recognition of equivalence of its measures with regard to a specific product, or group of products, shall not be in itself a reason to disrupt or suspend ongoing imports from the Party of the product(s) in question.

8. When the importing Party recognises the equivalence of the exporting Party's specific sanitary and phytosanitary measure, group of measures or measures on a systems-wide basis, the importing Party shall communicate the decision in writing to the exporting Party and implement the measure within a reasonable period of time. The rationale shall be provided in writing by the importing Party in the event that the decision is negative.

9. The importing Party may withdraw or suspend equivalence on the basis of any amendment, by one of the Parties, of measures affecting equivalence, in accordance with the following provisions:

(a) the exporting Party shall inform the importing Party of any proposal for amendment of its measures for which equivalence of measures is recognised and the likely effect of the proposed measures on the equivalence which has been recognised;

(b) within 60 working days or as mutually agreed by the Parties on receipt of this information, the importing Party shall inform the exporting Party whether or not equivalence would continue to be recognised on the basis of the proposed measures;

(c) the importing Party shall inform the exporting Party of any proposal for amendment of its measures on which recognition of

equivalence has been based and the likely effect of the proposed measures on the equivalence which has been recognised: and

(d) in case of non-recognition or withdrawal or suspension of equivalence, the importing Party shall indicate to the exporting Party the required conditions on which the process referred to in paragraphs 4 and 5 may be reinitiated, provided that the timelines of paragraph 6 shall be adhered to in any process for re-assessment of equivalence.

10. The withdrawal or suspension of equivalence rests solely with the importing Party acting in accordance with its administrative and legislative framework which shall adhere to the international standards, guidelines and recommendations. The importing Party shall provide to the exporting Party, upon request, an explanation for its determinations and decisions, except for disclosure of confidential data.

11. Compliance by an exported product that has been accepted as equivalent to sanitary and phytosanitary measures and standards of the importing Party shall not remove the need for that product to comply with any other relevant mandatory requirements of the importing Party.

Article 4.6
Adaptation to Regional Conditions, including Pest- or Disease-Free Areas and Areas of Low Pest or Disease Prevalence

1. Both Parties recognise the concepts of regional conditions, including pest-or disease-free areas and areas of low pest or disease prevalence, zoning and compartmentalisation. Parties shall take into account the relevant decisions of the WTO SPS Committee and international standards, guidelines, and recommendations.

2. Both Parties may cooperate on the recognition of regional conditions with the objective of acquiring confidence in the procedures followed by each other for such recognition.

3. At the request of the exporting Party, the importing Party shall, without undue delay, explain its process and plan for making the determination of regional conditions.

4 When the importing Party has received a request for a determination of regional conditions from the exporting Party, and has determined that the information provided by the exporting Party is sufficient, it shall initiate the assessment within a reasonable period of time.

5. For this assessment, reasonable access shall be given, upon request, to the importing Party for inspection, testing and other relevant procedures.

6. On request of the exporting Party, the importing Party shall inform the exporting Party of the status of the assessment.

7. When the importing Party recognises specific regional conditions of an exporting Party, the importing Party shall communicate that decision to the exporting Party in writing and implement the measures within a reasonable period of time.

8. If the evaluation of the evidence provided by the exporting Party does not result in a decision by the importing Party to recognise the regional conditions, the importing Party shall provide the exporting Party the rationale for its decision in writing within a reasonable period of time.

9. Where a determination recognising regional conditions is made, the Parties are encouraged, where mutually agreed, to report the outcome to the WTO SPS Committee.

Article 4.7
Risk Analysis

1. The Parties shall strengthen their cooperation on risk analysis in accordance with the SPS Agreement while taking into account the relevant decisions of the WTO SPS Committee and international standards, guidelines, and recommendations.

2. When conducting a risk analysis, an importing Party shall:

   (a) ensure that the risk analysis is documented and that it provides the exporting Party with an opportunity to comment in a manner to be determined by the importing Party;

   (b) consider risk management options that are not more trade restrictive than required to achieve its appropriate level of sanitary or phytosanitary protection; and

   (c) select a risk management option that is not more trade restrictive than required to achieve its appropriate level of sanitary or phytosanitary protection, taking into account technical and economic feasibility.

3. On request of the exporting Party, the importing Party shall inform the exporting Party of the progress of a specific risk analysis request, and of any delay that may occur during the process.

4. Without prejudice to the Parties' right to take emergency measures consistent with Article 4.9 (Emergency Measures), no Party shall stop the importation of a good of the other Party solely for the reason that the importing Party is undertaking a review of a sanitary or phytosanitary measure, if the importing Party permitted importation of the good of the other Party at the time of the initiation of the review.

Article 4.8
Audit, Certification and Import Checks

1. The Parties shall ensure that their import procedures comply with Annex C of the SPS Agreement including audit, certification, and import checks.

2. When conducting an audit, the Parties agree that:

(a) audits shall be systems-based and designed to check the effectiveness of the regulatory controls of the competent authorities of the exporting Party. Audits may include an assessment of the competent authorities' control programme, including, where appropriate, reviews of the inspection and audit programmes, and on-site inspections of facilities, without prejudice to the rights of a Party to seek market access on the basis of individual inspection and audits;

(b) prior to commencement of an audit, both Parties shall discuss and agree, *inter alia*:

(i) the rationale for and the objectives and scope of the audit;

(ii) the criteria or requirements against which the exporting Party will be assessed; and

(iii) the itinerary and procedures for conducting the audit;

(c) the auditing Party shall provide the audited Party the opportunity to comment on the finding of an audit and take any such comments into account before making its conclusions and taking any action;

(d) any decisions or actions taken by the auditing Party as a result of the audit shall be supported by objective evidence and data which can be verified, taking into account the knowledge, relevant experience, and confidence that the auditing Party has with the audited Party. Any such objective evidence and data shall be provided to the audited Party on request;

(e) any costs incurred by the auditing Party shall be borne by the auditing Party, unless the Parties agree otherwise; and

(f) the auditing Party and the audited Party shall each ensure that procedures are in place to prevent the disclosure of confidential information acquired during the auditing process.

3. When conducting certification, the Parties agree that:

(a) where certification is required for trade in a product, the importing Party shall ensure such certification is applied, in meeting its sanitary or phytosanitary objectives, only to the extent necessary to protect human, animal and plant life or health;

(b) in applying certification requirements, each Party shall take into account relevant decisions from the WTO SPS Committee and international standards, guidelines, and recommendations;

(c) the Parties shall promote the implementation of electronic certification and other technologies to facilitate trade; and

(d) without prejudice to each Party's right to use import controls, the importing Party shall accept certificates issued by the competent authorities in compliance with the regulatory requirements of the importing Party.

4. When conducting import checks, the Parties agree that:

(a) both Parties shall ensure that their control, inspection and approval procedures are in accordance with Annex C of the SPS Agreement;

(b) the import checks applied to imported animals, animal products, plants and plant products traded between the Parties shall be based on the risk associated with such importations. The import checks shall be carried out in a manner that is appropriate to the risk involved, without undue delay, and shall be least trade-restrictive; and

(c) unless there is a clearly identified risk in holding a consignment, the consignment shall not be destroyed without affording an opportunity to the importer to take back the consignment.

5. In the case of non-compliant consignments, both Parties agree to share relevant laboratory reports, if any.

Article 4.9
Emergency Measures

1. If a Party adopts an emergency measure that is necessary for the protection of human, animal or plant life or health and that may have an effect on trade, the Party shall promptly notify, in writing, in the English language, the other Party of that measure through the relevant contact point referred to in Article 4.13 (Contact Points and Competent Authorities). The importing Party shall take into consideration any information provided by the other Party in response to the notification.

2. If a Party adopts an emergency measure, it shall review the measure within 8 months or any other such time as agreed by the Parties and make available the results of the review to the other Party on request. If the emergency measure is maintained after the review, because the reason for its adoption remains, the Party may review the measure every 6 months.

   (a) the sanitary and phytosanitary requirements that apply for the import of specific products;

   (b) the status of the Party's application; and

(c) the procedures for the authorisation of specific products.

5. Unless urgent problems of human, animal or plant life or health protection arise or threaten to arise, or the measure is of a trade-facilitating nature, the Party proposing a sanitary or phytosanitary measure shall normally allow at least 60 days for the other Party to provide written comments on the proposed measure after it makes a notification under paragraph 2. If feasible and appropriate, the Party proposing the measure should allow more than 60 days. The Party shall consider any reasonable request from the other Party to extend the comment period. On request of the other Party, the Party proposing the measure shall respond to the written comments of the other Party in an appropriate manner.

6. A Party that proposes to adopt a sanitary or phytosanitary measure shall discuss with the other Party, on request, and if appropriate and feasible, any scientific or trade concerns that the other Party may raise regarding the proposed measure and the availability of alternative, less trade-restrictive approaches for achieving the objective of the measure.

7. The Parties encourage the publication, by electronic means, in an official journal or on a website, the proposed sanitary or phytosanitary measure notified under paragraph 3, and the legal basis for the measure.

8. Each Party shall notify the other Party of final sanitary or phytosanitary measures through the WTO Sanitary and Phytosanitary Measures Notification Submission System. Each Party shall ensure that the text or the notice of a final sanitary or phytosanitary measure specifies the date on which the measure takes effect and the legal basis for the measure. Each Party shall publish, preferably by electronic means, notices of final sanitary or phytosanitary measures in an official journal or website.

9. An exporting Party shall notify the importing Party through the contact points referred to in Article 4.13 (Contact Points and Competent Authorities) in a timely and appropriate manner:

(a) if it has identified significant sanitary or phytosanitary risk related to the export of a good from its territory going to the importing Party;

(b) of urgent situations where a change in animal or plant health status in the territory of the exporting Party may affect current trade;

(c) of significant changes in the status of a regionalised pest or disease;

(d) of new scientific findings of importance which affect the regulatory response with respect to food safety, pests or diseases; or

(e) of significant changes in food safety, pest or disease management, control or eradication policies or practices that may affect current trade.

10. Each Party shall provide within a reasonable period of time, appropriate information to the other Party through the contact points established under Article 4.13 (Contact Points and Competent Authorities) or already established communication channels of the Parties, when:

(a) there is significant or recurring sanitary or phytosanitary noncompliance associated with an exported consignment identified by the importing Party; and

(a) share best practices; and

(b) cooperate on joint scientific data collection.

Article 4.12
Technical Discussions

1. Where a Party considers that a sanitary or phytosanitary measure is affecting its trade with the other Party, it may, through the contact points or through other established communication channels, request a detailed explanation of the sanitary or phytosanitary measures including the scientific basis of the measure. The other Party shall respond promptly to any request for such explanation.

2. A Party shall notify the other Party of an emergency measure under this Chapter immediately after adopting its decision to implement the measure.    (a) suspend the further reduction of any rate of customs duty on the imports of the originating good provided for under this Agreement;

   (b) increase the rate of customs duty on the imports of the originating good to a level not to exceed the lesser of:

Nonetheless, upon a request by a Party, the Joint Committee may, not less than 5 years after the date on which the elimination or reduction of the customs duty on all the goods is completed, discuss and review the implementation and operation of this Article.

4. A Party shall notify the other Party in writing or by electronic communication:

   (a) within 7 days from the initiation of a bilateral safeguard investigation;

   (b) immediately upon making a finding of serious injury or threat thereof caused by increased imports; and

   (c) immediately upon application of provisional or a definitive bilateral safeguard measure or extending the measure.

5. In making the notification referred to in subparagraphs 4(b) and 4(c), the Party proposing to apply a bilateral safeguard measure shall provide the other Party with all pertinent information, which shall include evidence of serious injury or threat thereof caused by the increased imports, precise description of the good involved and the proposed measure and expected duration.

6. A Party proposing to apply a definitive bilateral safeguard measure or proposing the extension of a definitive bilateral safeguard measure shall provide adequate opportunity for prior consultations with the other Party as far in advance, of making a definitive finding for applying or extending any such measure, with a view to reviewing the information arising from the investigation, and exchanging views on the measure. 9. Each Party shall ensure that its competent authorities complete any such investigation within 8 months from the date of initiation which may be extended up to 1 year by the competent authority.

10. Neither Party may apply a bilateral safeguard measure:

(a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment; or

(b) for a period exceeding 2 years, except that the period may be extended by up to 2 years if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a bilateral safeguard measure, including the period of initial application and any extension thereof, shall not exceed 4 years.

11. No bilateral safeguard measure shall be applied to the import of an originating good for a period of 1 year from the date of commencement of tariff reduction or tariff elimination for that originating good provided for under this Agreement.

13. No bilateral safeguard measure shall be applied again to the import of an originating good that has been previously subject to such measure for a period of time equal to the period during which the previous measure was applied or 1 year since the expiry of such measure, whichever is longer.

15. Where the expected duration of a bilateral safeguard measure is over 1 year, the Party applying the bilateral safeguard measure shall progressively liberalise it at regular intervals during the period of application.

Provisional Safeguard Measures:

16. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as a result of the reduction or elimination of a customs duty under this Agreement, and such imports have caused serious injury, or threat thereof, to the domestic industry.

17. If a Party's competent authorities make a preliminary determination, the Party shall make such determination available to interested parties and shall provide interested parties at least 15 days to comment and submit their arguments with respect to such determinations.

18. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of paragraphs 5, 7, and 8.

19. The Party shall promptly refund any tariff increases if the investigation described in paragraphs 7 and 8 results in a finding that the requirements of paragraph 1 are not met. The duration of any provisional measure shall be counted as part of the period described in subparagraph 10(b).

Compensation:

20. No later than 30 days after a Party applies a definitive bilateral safeguard measure, the Party shall afford an opportunity to the other Party to consult regarding the appropriate trade liberalising compensation in the form of concessions having substantially equivalent trade effects. The

applying Party shall provide such compensation as the Parties mutually agree.

21. If the Parties are unable to agree on compensation within 30 days in the consultations, the Party against whose originating good the bilateral safeguard measure is applied may suspend the application of concessions with respect to the originating goods of the other Party that has trade effects substantially equivalent to that of the bilateral safeguard measure. The Party exercising the right of suspension may suspend the application of concessions only for the minimum period necessary to achieve substantially equivalent trade effects.

22. A Party against whose originating good the bilateral safeguard measure is applied shall notify the Party applying the bilateral safeguard measure in writing at least 30 days before it suspends concessions in accordance with paragraph 21.

[4] If a Party undertakes a market-access commitment in relation to the supply of a service through the "cross-border" mode of supply referred to in the definition of "Trade in Services" in Article 8.1 (Definitions), and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market-access commitment in relation to the supply of a service through the "commercial presence" mode of supply referred to in the definition of "Trade in Services" in Article 8.1 (Definitions), it is thereby committed to allow related transfers of capital into its territory.

[5] Subparagraph (c) does not cover measures of a Party which limit inputs for the supply of services

service. and

(f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

3. Each Party shall endeavour to minimise requirements for a service supplier of the other Party to establish or maintain a representative office or any form of juridical person or to be resident in its territory, as a condition for the cross-border supply of a service.

Article 8.4
National Treatment

1. In the sectors inscribed in its Schedule of specific commitments, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers.[6]

2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of the other Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of a Party compared to like services or service suppliers of the other Party.

Article 8.5
Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 8.3 (Market Access) or 8.4 (National Treatment), including those regarding qualifications, standards or licensing matters. Such commitments shall be inscribed in a Party's Schedule of specific commitments.

[6] Specific commitments assumed under this Article shall not be construed to require either Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

Article 8.6
Most Favoured Nation Treatment[7]

If, after the date of entry into force of this Agreement, a Party enters into any agreement on trade in services with a non-Party, it shall give consideration to a request by the other Party for the incorporation herein of treatment no less favourable than that provided under the aforesaid agreement. Any such incorporation should maintain the overall balance of commitments undertaken by each Party under this Agreement.

Article 8.7
Schedule of Specific Commitments

1. Each Party shall set out, in a Schedule, the specific commitments it undertakes under Articles 8.3 (Market Access), 8.4 (National Treatment) and 8.5 (Additional Commitments). With respect to sectors where such commitments are undertaken, each Schedule of specific commitments shall specify:

   (a) terms, limitations and conditions on market access;

   (b) conditions and qualifications on national treatment;

   (c) undertakings relating to additional commitments;

   (d) where appropriate the time frame for implementation of such commitments; and

   (e) the date of entry into force of such commitments.

2. Measures inconsistent with both Articles 8.3 (Market Access) and 8.4 (National Treatment) shall be inscribed in the column relating to Article 8.3 (Market Access). In this case, the inscription will be considered to provide a condition or qualification to Article 8.4 (National Treatment) as well.

3. The Parties' Schedules of specific commitments shall be annexed to this Chapter as Annex 8A (Schedule of Specific Commitments of India on Trade in Services) and Annex 8B (Schedule of Specific Commitments of Oman on Trade in Services) and shall form an integral part of this Agreement.

[7] This Article shall not apply to Financial Services

Article 8.8
Modification of Schedules

1. A Party may modify or withdraw any commitment in its Schedule, (referred to in this Article as the "modifying Party"), at any time after three years have elapsed from the date on which that commitment entered into force, in accordance with the provisions of this Article. It shall notify the other Party of its intent to modify or withdraw a commitment no later than three months before the intended date of implementation of the modification or withdrawal.

2. At the request of the other Party, the modifying Party shall enter into negotiations with a view to reaching agreement on any necessary compensatory adjustment within six months. In such negotiations and agreement, the Parties shall endeavour to maintain a general level of mutually advantageous commitments not less favourable to trade than that provided for in the Schedule of specific commitments prior to such negotiations. The Joint Committee shall be kept informed of the outcome of the negotiations.

3. If agreement is not reached between the affected Party and the modifying Party before the end of the period provided for negotiations, the affected Party may invoke the process in Chapter 13 (Dispute Settlement).

4. If an affected Party does not refer the matter to dispute settlement within 60 days from the expiration of the period referred to in paragraph 3, the modifying Party shall be free to implement the proposed modification or withdrawal.

5. The modifying Party may not modify or withdraw its commitment until it has made compensatory adjustments in conformity with the findings of the panel established pursuant to Article 13.8 (Establishment of a Panel - Dispute Settlement).

6. If the modifying Party implements its proposed modification or withdrawal and does not comply with the findings of the panel established pursuant to Article 13.8 (Establishment of a Panel - Dispute Settlement), the affected Party may modify or withdraw substantially equivalent benefits in conformity with those findings.

Article 8.9
Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services

are administered in a reasonable, objective and impartial manner.

2. Each Party shall maintain or institute as soon as practicable, judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier of the other Party, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. The provisions of paragraph 2 shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

4 Where authorisation is required for the supply of a service on which a specific commitment has been made, the competent authorities of a Party shall:

(a) within a reasonable period of time after the submission of an application considered complete under the laws and regulations of the Party, inform the applicant of the decision concerning the application;

(b) in the case of an incomplete application, at the request of the applicant, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;

(c) at the request of the applicant, without undue delay, provide information concerning the status of the application; and

(d) if an application is terminated or denied, to the maximum extent possible, inform the applicant in writing and without delay the reasons for such action. The applicant will have the possibility of resubmitting, at its discretion, a new application.

5. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements, do not constitute unnecessary barriers to trade in services, the Parties shall jointly review the results of the negotiations on disciplines on these measures, pursuant to Article VI.4 of the GATS, with a view to their incorporation into this Chapter. The Parties note that such disciplines aim to ensure that such requirements are, *inter alia*:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service;

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

6. Pending the incorporation of disciplines pursuant to paragraph 5, for sectors where a Party has undertaken specific commitments and subject to any terms, limitations, conditions or qualifications set out therein, a Party shall not apply licensing and qualification requirements and procedures and technical standards that nullify or impair such specific commitments in a manner which:

(a) does not comply with the criteria outlined in subparagraphs 5(a), 5(b), or 5(c); and

(b) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.

7. In determining whether a Party is in conformity with the obligation under paragraph 6, international standards of relevant international organisations[8] applied by that Party shall be taken into account.

8. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party in accordance with paragraph 5.

Article 8.10
Recognition

1. For the purposes of the fulfilment of its standards or criteria for the authorisation, licensing or certification of services suppliers, each Party shall give due consideration to any requests by the other Party to recognise the education or experience obtained, requirements met, or licenses or certifications granted in the other Party. Such recognition which may be achieved through harmonisation or otherwise may be based upon an agreement or arrangement with the other Party, or otherwise be accorded autonomously.

2. Where a Party recognises, by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, that Party shall afford the other

[8] The term "relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of both Parties

Party adequate opportunity to negotiate its accession to such an agreement or arrangement, whether existing or future, or to negotiate a comparable agreement or arrangement with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education or experience obtained, requirements met, or licenses or certifications granted in the territory of that other Party should also be recognised.

3. After the entry into force of this Agreement, the Parties shall encourage their relevant professional bodies in the service sectors of architecture, engineering, medical (doctors), dental, accounting and auditing, nursing, veterinary and company secretaries, to negotiate with the aim of concluding any such agreements or arrangements providing mutual recognition of the education or experience obtained, qualification requirements and procedures and licensing requirements and procedures, within a reasonable period of time. The Parties shall report periodically to the Joint Committee on progress and on impediments experienced.

4. In respect of regulated service sectors, other than those mentioned in paragraph 3, upon a request being made in writing by a Party to the other Party in such sector, the Parties shall encourage their respective professional bodies to negotiate, in that service sector, agreements for mutual recognition of education, or experience obtained, qualifications requirements and procedures, and licensing requirements and procedures in that service sector, with a view to the achievement of early outcomes. The Parties shall report periodically to the Joint Committee on the progress and the impediments experienced.

5. The Parties agree that they shall not be responsible in any way for the settlement of disputes arising out of or under the agreements or arrangements for mutual recognition concluded by their respective professional, standard-setting or regulatory bodies under the provisions of this Article and that the provisions of the Chapter 13 (Dispute Settlement) shall not apply to disputes arising out of or under the provisions of such agreements or arrangements.

6. The Parties agree to encourage, where possible, the relevant bodies in their respective territories to:

   (a) enhance cooperation on skill development and mutual recognition of qualifications;

   (b) organise bilateral discussion on particular skill sets and standards as per the requirements by each Party; and

   (c) pursue mutually acceptable standards and criteria for licensing

and certification with respect to service sectors of mutual importance to the Parties.

Article 8.11
Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's obligations under specific commitments.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's Schedule of specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraphs 1 or 2, it may request the other Party, that is the Party establishing, maintaining or authorising such supplier, to provide specific information concerning the relevant operations.

4. This Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:

   (a) authorises or establishes a small number of service suppliers; and

   (b) substantially prevents competition among those suppliers in its territory.

Article 8.12
Business Practices

1. The Parties recognise that certain business practices of service suppliers, other than those falling under Article 8.11 (Monopolies and Exclusive Service Suppliers), may restrain competition and thereby restrict trade in services.

2. A Party shall, at the request of the other Party (the "Requesting Party"), enter into consultations with a view to eliminating practices referred to in paragraph 1. The Party addressed (the "Requested Party") shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of

relevance to the matter in question. The Requested Party shall also provide other information available to the Requesting Party. subject to its domestic laws and to the conclusion of satisfactory agreement concerning the safeguarding of its confidentiality by the Requesting Party.

Article 8.13

Article 8.16
Restrictions to Safeguard the Balance of Payments

1. In the event of serious balance-of-payments and external financial difficulties or threat thereof, a Party may adopt or maintain restrictions on trade in services in respect of which it has undertaken specific commitments, including on payments or transfers for transactions relating to such commitments. It is recognised that particular pressures on the balance-of-payments of a Party in the process of economic development may necessitate the use of restrictions to ensure, *inter alia*, the maintenance of a level of financial reserves adequate for the implementation of its programme of economic development.

2. The restrictions referred to in paragraph 1 shall:

   (a) be applied in such a manner that the other Party is treated no less favourably than any non-Party;

   (b) be consistent with the Articles of Agreement of the IMF;

   (c) avoid unnecessary damage to the commercial, economic and financial interests of the other Party;

   (d) not exceed those necessary to deal with the circumstances described in paragraph 1; and

   (e) be temporary and be phased out progressively as the situation specified in paragraph 1 improves.

3. In determining the incidence of such restrictions, the Parties may give priority to the supply of services which are more essential to their economic or development programmes. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular service sector.

4. Any restrictions adopted or maintained under paragraph 1, or any changes therein, shall be promptly notified to the other Party.

5. To the extent that it does not duplicate the process under WTO and IMF, the Party adopting any restrictions under paragraph 1 shall, upon request by the other Party, commence consultations with the other Party in order to review the restrictions adopted by it.

2. A Party may also deny the benefits of this Chapter to the supply of a service from or in the territory of the other Party, if the Party establishes that the service is supplied by a service supplier that is owned or controlled by a person of a non-Party and the denying Party:

(a) does not maintain diplomatic relations with the non-Party; or

(b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the service supplier.

Article 8.18
Movement of Natural Persons

Each Party shall be free to determine the appropriate method of implementing the provisions of this Chapter within its own legal system and practice.

Article 10.6
TRIPS and Public Health

1. The Parties:

   (a) reaffirm, in general, their right to utilise the flexibilities provided in the TRIPS Agreement;

   (b) reaffirm, in particular, the Doha Declaration on the TRIPS Agreement and Public Health adopted on 14 November 2001 by the Ministerial Conference of the WTO; and

   (c) affirm that this Chapter shall be interpreted and implemented in a manner supportive of each Party's right to protect public health and, in particular, to promote access to medicines for all sections of the public.

2. The Parties have reached the following understanding regarding the protection of intellectual property rights under this Agreement:

   (a) this Chapter does not, in any manner whatsoever, prevent the Parties from taking measures to protect public health;

   (b) this Chapter does not, in any manner whatsoever, prevent the effective utilisation of Article 31*bis* of the TRIPS Agreement and the Annex and Appendix to the Annex to the TRIPS Agreement;

   (c) the Parties recognise the need and importance of contributing towards international efforts to implement Article 31*bis* of the TRIPS Agreement and the Annex and Appendix to the Annex to the TRIPS Agreement.

Article 10.7
National Treatment

1. In respect of all categories of intellectual property covered in this Chapter, each Party shall accord to nationals of the other Party treatment

no less favourable than it accords to its own nationals with regard to the protection[2] of intellectual property rights.

2. With respect to secondary uses of phonograms by means of analogue communications and free over-the-air broadcasting, however, a Party may limit the rights of the performers and producers of the other Party to the rights its persons are accorded within the jurisdiction of that other Party.

3. A Party may derogate from paragraph 1 in relation to its judicial and administrative procedures, including requiring a national of the other Party to designate an address for service of process in its territory, or to appoint an agent in its territory, provided that such derogation is:

(a) necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter; and

(b) not applied in a manner that would constitute a disguised restriction on trade.

Article 10.8
Transparency and Ease of Access

1. Each Party shall make available on the internet its laws, regulations, and final administrative rulings of general application concerning the protection and enforcement of intellectual property rights.

2. Each Party shall endeavour to, subject to its law, make available on the internet information that it makes public concerning applications for trademarks, geographical indications, patents, designs, plant variety rights, and copyright.[3]

3. Each Party shall, subject to its law, make available on the internet information that it makes public concerning registered or granted trademarks, geographical indications, patents, designs, plant variety

[2] For the purposes of this paragraph, "protection" shall include matters affecting the availability, acquisition, scope, maintenance and enforcement of intellectual property rights as well as matters affecting the use of intellectual property rights specifically covered by this Chapter. For greater certainty, "matters affecting the use of intellectual property rights specifically covered by this Chapter" in respect of works, performances and phonograms, include any form of payment, in respect of uses that fall under the copyright and related rights in this Chapter. The preceding sentence is without prejudice to a Party's interpretation of "matters affecting the use of intellectual property rights" in footnote 3 of the TRIPS Agreement.

[3] For greater certainty, under paragraph 2, a Party may make available on the internet the entire dossier for the relevant application.

rights, and copyright sufficient to enable the public to become acquainted with those registered or granted rights.[4]

4. For the better efficiency of the process related to intellectual property (IP) filings and registrations, each Party shall endeavour that the communication between IP filers/holders and IP offices is also made in the English language as well as in the official language to the extent practicable.

5. Each Party may, but shall not be obliged, to make available the information referred to in paragraphs 1 through 3 in the English language.

Article 10.9
Application of Chapter to Existing Subject Matter and Prior Acts

1. Unless otherwise provided in this Chapter, this Chapter gives rise to obligations in respect of all subject matter existing at the date of entry into force of this Agreement for a Party and that is protected on that date in the territory of the Party where protection is claimed, or that meets or comes subsequently to meet the criteria for protection under this Chapter.

2. Unless otherwise provided in this Chapter, a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement for that Party has fallen into the public domain in its territory.

3. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement for a Party.

Article 10.10
Exhaustion of Intellectual Property Rights

Nothing in this Agreement prevents a Party from determining whether or under what conditions the exhaustion of intellectual property rights applies under its legal system.[5]

---

[4] For greater certainty, under paragraph 3, a Party may make available on the internet the entire dossier for the relevant registered or granted intellectual property right.

[5] For greater certainty, this Article is without prejudice to any provisions addressing the exhaustion of intellectual property rights in international agreements to which a Party is a party.

The Parties shall endeavour to cooperate on the subject matter covered by this Chapter, such as through appropriate coordination, training and exchange of information between the respective intellectual property offices of the Parties, or other institutions, as determined mutually by the Parties. Cooperation may cover areas such as:

   (a) developments in domestic and international intellectual property policy;

   (b) intellectual property administration and registration systems;

   (c) education and awareness relating to intellectual property;

   (d) academics and research;

   (e) intellectual property issues relevant to:

      (i) small and medium-sized enterprises;

      (ii) science, technology and innovation activities;

      (iii) the generation, transfer and dissemination of technology;

      (iv) industrial models and prototypes;

      (v) technology and innovation support centres, including incubators;

      (vi) new plant varieties;

      (vii) limitations and exceptions; and

      (viii) global innovation index and global competitiveness index;

Article 10.12
Cooperation in the Field of Patents

1. The Parties recognise the importance of continuous improvement in the quality and efficiency of the procedures followed in their respective patent offices, including the simplification and streamlining of the procedures for the benefit of the public as a whole.

2 Further to paragraph 1, the Parties shall endeavour to cooperate so as to facilitate the sharing of search and examination work by their patent offices. This may include:

(a) training and capacity building;

(b) providing and supporting the exchange of patent applications, examination and search documents through approved processes for each Party;

(c) making search and examination results accessible to the public according to the relevant laws and regulations of each Party; and

(d) exchanging information on quality assurance systems relating to patent examination.

Article 10.13
Cooperation on Request

Cooperation activities and initiatives undertaken under this Chapter shall be considered upon request, conducted on mutually agreed terms, and be subject to the availability of resources.

SECTION C
TRADEMARKS

Article 10.14
Use of Identical or Similar Signs

Each Party shall provide that the owner of a registered trademark has the exclusive right to prevent third parties that do not have the owner's consent

from using in the course of trade, identical or similar signs, for goods or services that are related to those goods or services in respect of which the owner's trademark is registered, where such use would result in a likelihood of confusion. In the case of the use of an identical sign for identical goods or services, a likelihood of confusion shall be presumed.

Article 10.15
Scope of Protection in Trademarks

Each Party shall ensure that any signs or any combination of signs capable of distinguishing the goods and services of one undertaking from those of other undertakings, shall be capable of constituting a trademark. Such signs, in particular words including personal names, letters, numerals, figurative elements, three-dimensional shapes and combinations of colours as well as any combination of such signs, shall be eligible for registration as trademarks. Where signs are not inherently capable of distinguishing the relevant goods or services, the Parties may make registrability depend on distinctiveness acquired through use. No Party shall deny registration of a trademark solely on the grounds that the sign of which it is composed is a sound.[6]

Article 10.16
Well-Known Trademarks

1. No Party shall require as a condition for determining that a trademark is well-known that the trademark has been registered in the Party or in another jurisdiction.

2. Article 6*bis* of the *Paris Convention for the Protection of Industrial Property*, done at Paris on 20 March 1883, as revised at Stockholm on 14 July 1967, shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those identified by a well-known trademark,[7] whether registered or not, provided that the use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the well-known trademark, and provided that the interests of the owner of the well-known trademark are likely to be damaged by such use.

---

[6] A Party may require an adequate description, which can be represented graphically, of the trademark.

[7] In determining whether a trademark is well-known in a Party, that Party need not require that the reputation of the trademark extend beyond the sector of the public that normally deals with the relevant goods or services.

3. Each Party recognises the importance of the Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks as adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of WIPO at the Thirty-Fourth Series of Meetings of the Assemblies of the Member States of WIPO, 20 to 29 September 1999.

4. Each Party shall provide for appropriate measures to refuse the application or cancel the registration and prohibit the use of a trademark that is identical or similar to a well-known trademark,[8] for identical or similar goods or services, if the use of that trademark is likely to cause confusion with the prior well-known trademark. A Party may also provide such measures including in cases in which the subsequent trademark is likely to deceive the public or cause confusion.

Article 10.17
Procedural Aspects of Examination, Opposition and Cancellation

1. Each Party shall provide a system for the examination and registration of trademarks which includes, *inter alia*:

   (a) communicating to the applicant in writing, which may be by electronic means, the reasons for any refusal to register a trademark;

   (b) providing the applicant with an opportunity to respond to communications from the competent authorities, to contest any initial refusal, and to make a judicial appeal of any final refusal to register a trademark;

   (c) providing an opportunity to oppose the registration of a trademark or to seek cancellation[9] of a trademark; and

   (d) requiring administrative decisions in opposition and cancellation proceedings to be reasoned and in writing, which may be provided by electronic means.

---

[8] The Parties understand that a well-known trademark is one that was already well-known before, as determined by a Party, the application for, registration of, or use of the first-mentioned trademark.

[9] For greater certainty, cancellation for the purposes of this Section may be implemented through nullification or revocation proceedings.

Article 10.18
Classification of Goods and Services

1. Each Party shall adopt or maintain a trademark classification system that is consistent with the *Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks* done at Nice on 15 June 1957, as revised and amended (Nice Classification). Each Party may as permitted by its law, provide that:

   (a) registrations and the publications of applications indicate the goods and services by their names, grouped according to the classes established by the Nice Classification;[10] and

   (b) goods or services may not be considered as being similar to each other on the ground that, in any registration or publication, they are classified in the same class of the Nice Classification. Conversely, each Party shall provide that goods or services may not be considered as being dissimilar from each other on the ground that, in any registration or publication, they are classified in different classes of the Nice Classification.

Article 10.19
Multiclass Application

Each Party shall provide that single application may be made for registration of trademarks for different classes of goods or services of the Nice Classification.

Article 10.20
Term of Protection for Trademarks

Each Party shall provide that initial registration and each renewal of registration of a trademark is for a term of no less than 10 years.

Article 10.21
Exceptions

A Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that those exceptions

[10] A Party that relies on translations of the Nice Classification shall follow updated versions of the Nice Classification to the extent that official translations have been issued and published.

take account of the legitimate interest of the owner of the trademark and of third parties.

SECTION D
COUNTRY NAMES

Article 10.22
Country Names

Each Party shall provide the legal means for interested persons to prevent commercial misuse of the country name of a Party in relation to a good in a manner that misleads consumers as to the origin of that good.

SECTION E
GEOGRAPHICAL INDICATIONS

Article 10.23
Recognition of Geographical Indications

1. The Parties shall ensure in their domestic laws, adequate and effective means to protect geographical indications. Each Party recognises that such protection may be provided through a trademark system, relevant approved or acceded[11] international agreements, or a *sui generis* system or other legal means, provided that all requirements under the TRIPS Agreement are fulfilled.

2. Each Party recognises that such goods may include, agricultural goods, natural goods, and manufactured goods, including goods of industry, handicrafts, and foodstuffs.

Article 10.24
Opposition Procedures

With respect to the opposition procedures, each Party in accordance with its laws shall provide procedures that allow at least interested persons to oppose the protection of a geographical indication.

[11] 'Approved' and 'acceded' may be deemed by a Party to be synonymous terms.

SECTION F
PATENTS AND GENETIC RESOURCES, TRADITIONAL KNOWLEDGE AND TRADITIONAL CULTURAL EXPRESSIONS

Article 10.25
Grace Period

1. Each Party may disregard information contained in public disclosures used to determine whether an invention is novel or has an inventive step, if the public disclosure of any form:[12] [13]

   (a) was made by the patent applicant or by a person that obtained the information directly or indirectly from the patent applicant; and

   (b) occurred within 12 months prior to the date of the filing of the application.

Article 10.26
Exceptions

A Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

Article 10.27
Genetic Resources, Traditional Knowledge and Traditional Cultural Expressions

1. Subject to each Party's international obligations, each Party shall establish appropriate measures to protect genetic resources, traditional knowledge, and traditional cultural expressions.

---

[12] No Party shall be required to disregard information contained in applications for, or registrations of, intellectual property rights made available to the public or published by a patent office, unless erroneously published or unless the application was filed without the consent of the inventor or their successor in title, by a third person who obtained the information directly or indirectly from the inventor.

[13] For greater certainty, a Party may limit the application of this Article to disclosures made by, or obtained directly or indirectly from, the inventor or joint inventor. A Party may provide that, for the purposes of this Article, information obtained directly or indirectly from the patent applicant may be information contained in the public disclosure that was authorised by, or derived from, the patent applicant.

2. Where a Party has disclosure requirements relating to the source or origin of genetic resources as part of a Party's patent system, that Party shall endeavour to make available its laws, regulations, and procedures with respect to such requirements, including on the internet where feasible, in such a manner as to enable interested persons and other relevant Parties to become acquainted with them.

3. The Parties shall endeavour to pursue quality patent examination, which may include, wherever applicable and appropriate, the use of databases or digital libraries which contain relevant information on traditional knowledge associated with genetic resources, and, when determining prior art, relevant publicly available documented information related to traditional knowledge associated with genetic resources may be taken into account.

4. The Parties shall endeavour to cooperate on areas of mutual interest with respect to genetic resources, traditional knowledge, and traditional cultural expressions, through appropriate coordination, training, or exchange of information, as determined mutually by the Parties. Cooperation may cover areas such as:

(a) strengthening the efforts to protect genetic resources, traditional knowledge and cultural expressions;

(b) conducting activities for the promotion and utilisation of genetic resources, traditional knowledge and cultural expressions;

(c) sharing of best practices and experiences to prevent misappropriation of genetic resources, traditional knowledge and cultural expressions;

(d) sharing of best practices and experiences on the usefulness of the disclosure requirements of origin or source of genetic resources and associated traditional knowledge in patent applications;

(e) strengthening and sharing the experiences for enhancing the transparency requirements of the patent system that is related to utilisation of genetic resources and associated traditional knowledge; and

(f) sharing experiences and exchange of information regarding the development of access and benefit-sharing legislations or regulatory requirements;

as well as other areas in common to the Parties that are relevant, *inter alia*, to the above mentioned activities and may also include joint

implementation of the learnings for the equitable economic benefits of each Party.

SECTION G
COPYRIGHT AND RELATED RIGHTS

Article 10.28
Rights of Reproduction, Distribution and Communication

1. Each Party shall provide[14] to authors, performers and producers of phonograms[15] the exclusive right to authorise or prohibit:

   (a) all reproduction of their works, performances or phonograms in any manner or form, including in electronic form;

   (b) the making available to the public of the original and copies[16] of their works, performances and phonograms through sale or other transfer of ownership; and

   (c) the commercial rental to the public of the original and copies of their performances fixed in phonograms as determined in the national law of each Party, even after their distribution.

2. Each Party shall provide to authors of phonogram[17] the exclusive right to authorise or prohibit the communication to the public of their works, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.[18]

---

[14] For greater certainty, the Parties understand that it is a matter for each Party's law to prescribe that works, performances or phonograms in general or any specified categories of works, performances and phonograms are not protected by copyright or related rights unless the work, performance or phonogram has been fixed in some material form.

[15] The terms "authors, performers, and producers of phonograms" refer also to any of their successors in interest.

[16] The expressions "copies" and "original and copies", that are subject to the right of distribution in this Article, refer exclusively to fixed copies that can be put into circulation as tangible objects.

[17] The Parties understand that phonograms do not include cinematographic or other audiovisual works.

[18] The Parties understand that the mere provision of physical facilities for enabling or making a communication does not in itself amount to communication within the meaning of this Chapter or the Berne Convention for the Protection of Literary and Artistic Works (Berne Convention). The Parties further understand that nothing in this Article precludes a Party from applying Article 11*bis* (2) of the Berne Convention.

3. Copyright may not be restricted except in accordance with the laws and regulations in force in each Party and the TRIPS Agreement.

Article 10.29
Related Rights

1. Each Party shall accord the rights provided for in this Chapter with respect to performers and producers of phonograms to the performers and producers of phonograms that are nationals[19] of the other Party, and to performances or phonograms first published or first fixed[20] in the territory of the other Party.[21]

2. Each Party shall provide to performers the exclusive right to authorise or prohibit:

   (a) the broadcasting and communication to the public of their unfixed performances, unless the performance is already a broadcast performance; and

   (b) the fixation of their unfixed performances.

3. Each Party shall provide to performers and producers of phonograms the exclusive right to authorise or prohibit the broadcasting or any communication to the public of their performances or phonograms, by wire or wireless means,[22] and the making available to the public of those performances or phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them.

4 Notwithstanding paragraph 3 and Article 10.31 (Limitations and Exceptions), the application of the right referred to in paragraph 3 to

---

[19] For the purposes of determining criteria for eligibility under this Article, with respect to performers, a Party may treat "nationals" as those who would meet the criteria for eligibility under Article 3 of the World Intellectual Property Performances and Phonograms Treaty (WPPT).

[20] For the purpose of this Article, "fixation" means the embodiment of sound or moving images or of the representation thereof from which they can be perceived, reproduced or communicated by means of a device.

[21] For greater certainty, in this paragraph with respect to performances or phonograms first published or first fixed in the territory of a Party, a Party may apply the criterion of publication, or alternatively, the criterion of fixation, or both. For greater certainty, consistent with Article 10.7 (National Treatment), each Party shall accord to performances and phonograms first published or first fixed in the territory of the other Party treatment no less favourable than it accords to performances or phonograms first published or first fixed in its own territory.

[22] For greater certainty, the obligation under this paragraph does not include broadcasting or communication to the public, by wire or wireless means, of the sounds or representations of sounds fixed in a phonogram that are incorporated in a cinematographic or other audio-visual work.

analogue transmissions and non-interactive free over-the-air broadcasts, and exceptions or limitations to this right for those activities, is a matter of each Party's law.[23]

5. Both Parties shall endeavour to cooperate in the field of copyright and related rights covered by this Chapter for preventing and combating infringement, such as through appropriate coordination, training and exchange of information, between the respective intellectual property offices, or other institutions, as determined mutually by the Parties.

Article 10.30
Obligations Concerning Protection of Technological Measures and Rights Management Information

1. Each Party shall provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that are used by authors, performers or producers of phonograms in connection with the exercise of their rights as provided under Articles 10.28 (Rights of Reproduction, Distribution and Communication) and 10.29 (Related Rights) of this Agreement, that restrict acts, in respect of their works, performances or phonograms, which are not authorised by the authors, performers or producers of phonograms concerned or permitted by law.

2. Each Party shall provide adequate and effective legal remedies against any person who knowingly, without authorisation removes or alters any electronic rights management information or distributes, imports for distribution, broadcasts or communicates to the public, without authority, works or copies of works knowing that electronic rights management information[24] has been removed or altered without authorisation.

---

[23] For the purposes of this paragraph, the Parties understand that a Party may provide for the retransmission of non-interactive, free over-the-air broadcasts, provided that these retransmissions are lawfully permitted by that Party's government communications authority; any entity engaging in these retransmissions complies with the relevant rules, orders or regulations of that authority; and these retransmissions do not include those delivered and accessed over the internet. For greater certainty, this footnote does not limit a Party's ability to avail itself of this paragraph.

[24] For the purpose of clarity, "rights management information" shall be interpreted in accordance with Article 12 of the *WIPO Copyright Treaty*, done at Geneva on 20 December 1996.

Article 10.31
Limitations and Exceptions

With respect to this Section, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.

SECTION H
ENFORCEMENT

Article 10.32
General Obligation in Enforcement

1. Each Party shall ensure that enforcement procedures as specified in this Section are available under its law so as to permit effective action against any act of infringement of intellectual property rights covered by this Chapter, including expeditious remedies to prevent infringements and remedies that constitute a deterrent to future infringements. These procedures shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

2. Procedures concerning the enforcement of intellectual property rights shall be fair and equitable.

3. It is understood that this part does not create any application to put in place a judicial system for the enforcement of intellectual property rights, distinct from that for the enforcement of law in general, nor does it affect the capacity of the Parties to enforce their law in general. Nothing in this Section creates any obligation with respect to the distribution of resources, as between enforcement of intellectual property rights, and the enforcement of law in general.

Recalling that the Universal Declaration of Human Rights asserts the principle of non-discrimination and proclaims that every person has the right to education,

Considering that discrimination in education is a violation of rights enunciated in that Declaration,

Considering that, under the terms of its Constitution, the United Nations Educational, Scientific and Cultural Organization has the purpose of instituting collaboration among the nations with a view to furthering for all universal respect for human rights and equality of educational opportunity,

Recognizing that, consequently, the United Nations Educational, Scientific and Cultural Organization, while respecting the diversity of national educational systems, has the duty not only to proscribe any form of discrimination in education but also to promote equality of opportunity and treatment for all in education,

Having before it proposals concerning the different aspects of discrimination in education, constituting item 17.1.4 of the agenda of the session,

Having decided at its tenth session that this question should be made the subject of an international convention as well as of recommendations to Member States,

Adopts this Convention on the fourteenth day of December 1960.

Article 1

1. For the purposes of this Convention, the term 'discrimination' includes any distinction, exclusion, limitation or preference which, being based on race, colour, sex, language, religion, political or other opinion, national or social origin, economic condition or birth, has the purpose or effect of nullifying or impairing equality of treatment in education and in particular:

(a) Of depriving any person or group of persons of access to education of any type or at any level;

(b) Of limiting any person or group of persons to education of an inferior standard;

(c) Subject to the provisions of Article 2 of this Convention, of establishing or maintaining separate educational systems or institutions for persons or groups of persons; or

(d) Of inflicting on any person or group of persons conditions which are incompatible with the dignity of man.

2. For the purposes of this Convention, the term 'education' refers to all types and levels of education, and includes access to education, the standard and quality of education, and the conditions under which it is given.

Article 2

When permitted in a State, the following situations shall not be deemed to constitute discrimination, within the meaning of Article I of this Convention:

(a) The establishment or maintenance of separate educational systems or institutions for pupils of the two sexes, if these systems or institutions offer equivalent access to education, provide a teaching staff with qualifications of the same standard as well as school premises and equipment of the same quality, and afford the opportunity to take the same or equivalent courses of study;

(b) The establishment or maintenance, for religious or linguistic reasons, of separate educational systems or institutions offering an education which is in keeping with the wishes of the pupil's parents or legal guardians, if participation in such systems or attendance at such institutions is optional and if the education provided conforms to such standards as may be laid down or approved by the competent authorities, in particular for education of the same level;

(c) The establishment or maintenance of private educational institutions, if the object of the institutions is not to secure the exclusion of any group but to provide educational facilities in addition to those provided by the public authorities, if the institutions are conducted in accordance with that object,

and if the education provided conforms with such standards as may be laid down or approved by the competent authorities, in particular for education of the same level.

Article 3

In order to eliminate and prevent discrimination within the meaning of this Convention, the States Parties thereto undertake:

(a) To abrogate any statutory provisions and any administrative instructions and to discontinue any administrative practices which involve discrimination in education;
(b) To ensure, by legislation where necessary, that there is no discrimination in the admission of pupils to educational institutions;
(c) Not to allow any differences of treatment by the public authorities between nationals, except on the basis of merit or need, in the matter of school fees and the grant of scholarships or other forms of assistance to pupils and necessary permits and facilities for the pursuit of studies in foreign countries;
(d) Not to allow, in any form of assistance granted by the public authorities to educational institutions, any restrictions or preference based solely on the ground that pupils belong to a particular group;
(e) To give foreign nationals resident within their territory the same access to education as that given to their own nationals.

(c) To encourage and intensify by appropriate methods the education of persons who have not received any primary education or who have not completed the entire primary education course and the continuation of their education on the basis of individual capacity;
(d) To provide training for the teaching profession without discrimination.

Article 5

1. The States Parties to this Convention agree that:

(b) It is essential to respect the liberty of parents and, where applicable, of legal guardians, firstly to choose for their children institutions other than those maintained by the public authorities but conforming to such minimum educational standards as may be laid down or approved by the competent authorities and, secondly, to ensure in a manner consistent with the procedures followed in the State for the application of its legislation, the religious and moral education of the children in conformity with their own convictions; and no person or group of persons should be compelled to receive religious instruction inconsistent with his or their convictions;

(c) It is essential to recognize the right of members of national minorities to carry on their own educational activities, including the maintenance of schools and, depending on the educational policy of each State, the use or the teaching of their own language, provided however:

(i) That this right is not exercised in a manner which prevents the members of these minorities from understanding the culture and language of the community as a whole and from participating in its activities, or which prejudices national sovereignty;

(ii) That the standard of education is not lower than the general standard laid down or approved by the competent authorities; and

(iii) That attendance at such schools is optional.

2. The States Parties to this Convention undertake to take all necessary measures to ensure the application of the principles enunciated in paragraph 1 of this Article.

Article 6

In the application of this Convention, the States Parties to it undertake to pay the greatest attention to any recommendations hereafter adopted by the General Conference of the United Nations Educational, Scientific and Cultural Organization defining the measures to be taken against the different forms of discrimination in education and for the purpose of ensuring equality of opportunity and treatment in education.
